The following resolution was presented and passed at the April 13, 2015 meeting of the University Senate:

“Given the planned increase in enrollment, the Senate requests the administration to provide quarterly updates on the implications of the increased numbers. These updates should include effects on availability of general education courses, on-campus housing, and science laboratories, impact on academic majors, safety, health care and advising, and re-allocation of teaching faculty by type: tenure-track, in-residence, adjunct and graduate teaching assistants.”

Thank you to all members, guests and presenters for the information shared and discussions held during this past academic year
