President Agwunobi called the meeting to order at 4:00 p.m.

1. Election of Moderator and Secretary
   President Agwunobi called on Senator Bramble to nominate a moderator. Senator Bramble nominated Senator Dineen as moderator for the 2021-2022 academic year. Senator Wagner seconded the motion.
   Motion passed unanimously.

   Moderator Dineen called for nominations for Secretary of the Senate for the 2021-2022 academic year.
   Senator Bramble nominated Christine North as Secretary of the Senate for the 2021-2022 academic year.
   Senator Wagner seconded the motion.
   Motion passed unanimously.

2. Land Acknowledgement Statement
   Moderator Dineen read the Land Acknowledgement Statement:
   “We would like to begin by acknowledging that the land on which we gather is the territory of the Mohegan, Mashantucket Pequot, Eastern Pequot, Schaghticoke, Golden Hill Paugussett, Nipmuc, and Lenape Peoples, who have stewarded this land throughout the generations. We thank them for their strength and resilience in protecting this land, and aspire to uphold our responsibilities according to their example.”

3. Introduction of Senators
   Moderator Dineen asked Senate Administrator Galli to call the name of each senator. Senators state their name school/college and department, and the Senate committee(s) on which they serve.

4. Approval of Minutes of April 26, 2021 University Senate meeting
   Moderator Dineen called for any amendments or objections to the minutes, for which there were none.
   Minutes were accepted as presented.
5. **Report of the President**

President Agwunobi began by stating that it is a pleasure to be here for the first Senate meeting of the Fall semester and his first meeting in this role. While this meeting is virtual, he knows that many are back on campuses in person and he wants to thank everyone at the core of what we do. Through his interaction with students at events on the Storrs and regional campuses, he senses a feeling of excitement, relief, and happiness after being at home for so long.

President Agwunobi shared that his top priority was to open successfully and safely and he feels that so far it has been working well. He reported that we have a high vaccination rate among our students with 97% of Storrs residential students partially or fully vaccinated and more than 91% of students across all campuses fully or partially vaccinated. UConn is requiring vaccination for all employees. On the UConn Health campus, 12% of employees have not yet registered and about 25% at Storrs and regional haven’t yet registered. the deadline for employees to report full vaccination status is October 15th. Communications are going out to employees as needed from Human Resources. UConn is maintaining the indoor masking policy. Students are in general very responsible about masking indoors. This has helped to keep our COVID numbers low. The most recent numbers show that there are six currently positive cases among the Storrs residential population and very low or none at the branch campuses. The COVID dashboard is updated every Wednesday.

President Agwunobi shared other items he is working on including strategic planning and issues around infrastructure [hiring for gaps in different areas, such as an AVP of the Office of Institutional Equity]. He noted he has great respect for the role that the Senate plays in shared governance at UConn and is looking forward to working with the Senate in the months ahead. He is a strong believer in open communication, accessibility, transparency. He has worked hard to exemplify those values at UConn Health and will continue to do the same here.

Moderator Dineen invited questions from the floor.

Senator Long asked President Agwunobi to comment on recent actions by the UConn Board of Trustees related to the AAUP contract negotiations and the purchase of a piece of property in Mansfield. Senator Long suggested that many faculty felt that both the BOT and the UConn administration were not acting in good faith. He further noted that the decision to purchase the Mansfield property blindsided the Mansfield Town Council, which had been negotiating for residential
and retail construction there to provide more affordable housing in the town and to increase its property tax base. Were you part of these BOT discussions? Do you agree with these decisions? And where is the $4 million coming from? President Agwunobi thanked Senator Long for the candid questions and began by addressing the example given regarding the contract extension agreement. When he came to UConn in the interim role one of the first things that came up was the lack of a contract extension agreement. The team quickly came together and agreed that they should sign an extension of the contract and continue to have collaborative negotiations within that umbrella of an extended contract. This extension allows for all faculty negotiated terms that were in the original contract to continue while working towards a new agreement. Regarding the issue of the Town of Mansfield, he shared that he believes in a collaborative approach. He met with the Mayor to talk, though this land purchase was already complete by the time he came into this role. They discussed a future project that was being appealed by the University which was then dropped. They decided to move forward with structured, collaborative discussions with the Mayor and the Town of Mansfield about future development. President Agwunobi noted that he cannot speak to decisions that were made prior to him taking the interim role, but his experience with Board of Trustee members, in general, is that these are very deeply committed individuals. They don’t always make decisions that everyone will always agree with, but this type of forum is important to bring up the decisions we don’t agree with so we can get feedback to the administration and the Board. President Agwunobi asked Lloyd Blanchard, Chief Financial Officer, to speak on the final question regarding where the funds were coming from for the land purchase. Senator Blanchard stated that the four million dollars for the Capstone Property purchase came from leftover funds budgeted for the Tech Park, which are State General Obligation (GO) Bond Funds.

Senator McCutcheon commented on hiring especially at the administrative level over the last decade or so, yet at the school level they’ve seen consistent budget cuts and budget crises. He questioned how prioritizations of the budget are going to affect academic units when we hear things about major budget increases in areas such as Athletics and Human Resources. How are these decisions being made? President Agwunobi responded that he is still learning the process for prioritization and he is also working with the Strategic Planning Committee. The Provost helps us to prioritize the mission of teaching, research, and service. President Agwunobi will be working with finance, Provost Lejuez, and others as we budget moving forward.
Senator Majumdar commented that he is on the current AAUP Negotiating Team and was also on the 2017 team. He noted that the 2017 team agreed on the terms of an extension within a couple of hours following the realization that there would not be a new contract before the current one expired. The current team met for nearly 7 weeks working only on the extension agreement. This eroded trust, not only between the teams but among the faculty. Senator Majumdar then inquired about vaccination rates at the Stamford campus. He noted that 88% of students are reported to be partially or fully vaccinated and 4% are reported to be exempt. What has happened to the remaining 8% of students? There is concern about the lack of mandatory weekly testing for non-residential students who make up 85% of the student body at the Stamford campus. With the permission of the Senate, Dean of Students Ellie Daugherty was recognized and shared that she has been working directly with the President and the Provost regarding the need to implement surveillance testing for those exempted students. They met with the campuses last week and activated the contract with Vault Medical Services. Surveillance testing on the regional campuses will be implemented for those students who have been exempted from the requirement.

Senator Jockusch was concerned that the torch-lighting at Convocation appeared to be the kind of close outdoor association through which the Delta variant has been shown to spread. What led to the decision to hold such an event? Dean of Students Daughtery shared that the position regarding outdoor programming and events and the adoption of preventative measures is a University effort. Convocation is one of several significant events in the student experience. The University understood the risk that comes with congregating in a large setting. The vaccination rate was at (about) 97% at the time and the event was delayed by one day to allow for a head start on all of the pre-arrival and arrival student testings. We are now more than a week after Convocation and there has not been a spike in cases, which is viewed as a cautious affirmation that the planning effort that went into it was appropriate.

6. Report of the Senate Executive Committee

Moderator Dineen invited questions from the floor. Senator McCutcheon shared his objection to the SEC’s decision to remove the chat feature from the online meetings. He feels that the Senate should take advantage of the tools that the platform offers so that we may better communicate with fellow Senators in this virtual environment. Senator Siegle noted that the use of the chat feature does not allow for communication to flow through the Moderator. A senator
wishing to speak need only raise their hand. Floor discussions can then be recorded in the minutes.

Senator Long asked if the Senate Executive Committee is considering bringing to the Senate a resolution to commend former President Katsouleas for his contributions to the University. Senator Siegle stated that the SEC sent an e-mail thanking President Katsouleas for his service and outlining the contributions he had made to the University.

Moderator Dineen asked if there was any new business being brought to the Senate this evening. There was no new business.

Senator McCutcheon asked if there was any discussion with the former President or any others regarding a formalized search for the next president and whether one would be commencing any time soon as there seems to be some ambiguity on this in some e-mails. Senator Siegle noted that presidential searches are the purview of the Board of Trustees.

7. **Consent Agenda Items:**

   Attachment #2

   Report of the Senate Curricula and Courses Committee

   Moderator Dineen called for a vote to approve the Consent Agenda Items. Passed by voice consensus.

8. **Report from Senate Scholastic Standards**

   Attachment #3

   (presented by Senators Coulter and Fitch)

   PRESENTATION of a motion to amend the By-Laws, Rules and Regulations of the University Senate, II.B.10, Academic Advising and Registration, 11.E.3.b, Pass-Fail Option

   Senator Fitch presented the Report from the Senate Scholastic Standards.

   Moderator Dineen invited questions from the floor.

   Senator Schultz inquired about the reasoning concerning the 11th week noting this follows nearly two weeks from when students have the opportunity to register for courses in the Spring. Senator Fitch shared that the concern was discussed by the Committee and the main reason for extending the deadline to the 11th week is to allow time for students to have adequate assessments. Many faculty rely on late semester
work. The SSC appreciates that students will have already registered for the Spring semester, but they will still have time to modify their registration.

Senator Schultz motioned to amend the wording. (amendments are highlighted in yellow)

Students seeking to withdraw from more than one course after the tenth day of classes or seeking to withdraw from a course after the eleventh week of the semester require must get approval from by the student’s advisor and No student is permitted to drop a course after the ninth week of classes or to drop more than one course after the first ten days of classes unless on the recommendation of the advisor an exception is made by from the Dean or designee of the school or college in which the student is enrolled.

Students who are selecting a course for the Pass-Fail option or want to convert a Pass-Fail back to a graded basis must do so within the first two weeks by the eleventh week of the semester. Students who convert to a Pass-Fail and then revert the course back to a graded basis cannot again convert the course back to a Pass-Fail. Students who are removing a course from the Pass-Fail option must do so within the first nine weeks of the semester. Students interested in seeking to putting a course on Pass-Fail after the eleventh week of the semester must get approval by from the student’s advisor and by from the Dean or designee of the school or college in which the student is enrolled.

Senator Morrell seconded the motion for the amendments.

The motion to amend passed.

Senator McDougald asked for verification on whether the scope of the change included The Graduate School. Senator Holsinger confirmed that the Graduate catalog follows the Undergraduate Catalog with regards to the withdrawal date and the pass/fail option is not available to graduate students.

Senator McDougald motioned to amend the wording.

“Poor academic performance alone is not an extenuating circumstance.”

Moderator Dineen stated that with permission of the Senate she proposed that the word “alone” be added and this minor change does not require a vote if there are no objections. The amendment was initially accepted. Senator Armstrong then noted concern about adding the word “alone” as she feels this may be limiting.
Senator Armstrong motioned to remove the word, “alone” from “Poor academic performance alone is not an extenuating circumstance.” Senator Long seconded the motion. There was no further discussion. The motion passed.

Moderator Dineen called for a vote to amend the By-Laws, Rules and Regulations of the University Senate, II.B.10, Academic Advising and Registration, 11.E.3.b, Pass-Fail Option. The motion passed with greater than the 2/3 majority required to present and vote on a Senate by-law amendment within the same meeting.

9. Enrollment Update  

Mona Lucas, Assistant Vice President of Enrollment Planning and Management shared the Enrollment Update.

Moderator Dineen invited questions from the floor.

Senator Morrell inquired about the split in the non-CT resident enrollment, international versus out-of-state students. How has that changed and what are the expectations are going forward? Director of Admission Vern Granger shared that the target for this year was about 60% CT residents and 40% non-residents. We came close to the target for in-state students. The composition of the non-resident percentage is showing higher out-of-state students versus international due to the pandemic and challenges associated with visas. Senator Morrell asked whether there was a sense as to whether this might change in the future. Mr. Granger noted there is a feeling that there will be a rebounding of international students coming to the United States so long as COVID improves and there is a reopening of visas for students.

Senator Lillo-Martin requested that the student breakdown also includes students who identify as disabled.

Senator McCoach noted that there appears to be a major underrepresentation of African-Americans and Latinx when compared to the K-12 populations in CT as of last year. What is the University doing to increase the representation of these two very important groups? Mr. Granger noted that this important question is being considered by the Undergraduate Admissions Office and its Enrollment Planning and Management partners. They are taking a multi-pronged approach which would start with recruitment, then move onto holistic application review including moving to test-optional.
Senator McCutcheon asked why we are still reporting test scores as a metric of quality when the percentage of freshmen who did not submit scores is high. Mr. Granger stated that about 40% of newly enrolled students reported a test score. There was an increase in the scores from last year to this one, but this is noted in the score reporting.

Senator Majumdar noted that the target for in-state students of 60% was broadly met, but the numbers that are presented are true for the Storrs campus. The regional in-state student number was around 93%. Overall, what is the percentage of CT residents that were taken in this year across all the campuses? Mr. Granger clarified that the targets are for Storrs and there is no residency target for the regional campuses.

10. New Business
   No new business

11. Adjournment
   Senator Morrell motioned to adjourn the meeting.
   Senator Burkey seconded.
   Motion passed by consensus.
   The meeting was adjourned at 6:02 p.m.

Respectfully Submitted,
Christine S. North
Secretary of the University Senate, 2021-2022

From the 4/19/21, 5/3/21, and 8/31/21 meetings.
A. Background:

Historically and before COVID-19, policies and practices were in place at the University of
Connecticut to assist students who were facing challenges (e.g., personal or familial
illnesses, death of family and next of kin, or serious academic difficulties). Faculty, advising
staff, and other support offices worked with affected students using an existing portfolio or
"tool-kit" of policies to address difficult situations and/or facilitate completion of work.
Those policies and practices remain in place. However, temporary modifications were made
to some of these University-wide policies to address COVID-specific impacts.

In Spring 2020, Fall 2020, and Spring 2021, Scholastics Standards Committee recommended
-- and the Senate passed -- extensions to Pass-Fail and Withdraw deadlines to help students
deal with the uncertainties and stresses related to COVID-19. Associated deliberations over
18 months allowed the SSC to delve into these policies/deadlines, through discussion with
Financial Aid offices, Registrar, undergraduate advising, USG, and other offices. These
efforts yielded critical insights, including which and how many students utilized the
amended policies, and how advising networks perceived the initial impacts a year+ later.
This information provides insight on unintended negative consequences of leniency changes
(e.g., impacts on degree completion and post-graduate programs such as
law/medical/dental/business school applications and other professional endeavors).

Since COVID-19 remains an active concern, SSC has performed further assessment of the
Senate By-Laws associated with Pass-Fail and Withdrawal, looking to the fall 2021 semester
as well as the longer term (in anticipation of ongoing stressors that P/F and W policies are
intended to offset). We have two important findings to report:

1) The current deadlines for Pass-Fail and Withdraw in the Senate By-Laws appear to be
arbitrary. SSC has found nothing to substantiate that the current deadlines for Pass-Fail (at
the end of the 10th day of semester) or Withdraw (at the end of the 9th week of the
semester) are sacrosanct, nor tied to Federal policy.

2) The extended deadlines over the past three semesters, while allowing students
additional time to make decisions, have indeed had non-optimal consequences for:

   a) Our students, who were making decisions late in the semester under very stressful
circumstances, potentially compromising grades in other courses, enrollment in
sequential courses (where pre-recs were invalidated after Registration), and time to
graduation (with associated expense);
b) our advising staff, who were charged with assisting students in these consequential grade-related decisions, and were inundated and stressed by managing late grade-related requests. Moreover, this led to delayed dismissal decisions, which are not advantageous to students;

c) our Registrar’s Office, who were tasked with processing a large volume of grade-related changes and dismissal decisions in a brief time window during end-of-semester holiday periods, adding stress to this critical staff.

With these factors in mind, SSC brings a proposal to extend, align, and standardize permanently the Pass-Fail and Withdraw deadlines.

This proposal was discussed and unanimously supported at the August 30, 2021 meeting by SSC, which includes faculty members from various Schools and Colleges, Mason Holland, (University Student Government, president), and individuals in staff positions throughout the university, including: Maureen Armstrong (Dean of Students Office), Karen Bresciano (Graduate School and Student Welfare Committee Chair), Erin Ciarimboli and colleagues (Enrichment Programs and Undergraduate Advising), Greg Bouquot (Registrar’s Office), Jen Lease-Butts (Enrichment Programs), Ellen Tripp (Student-Athlete Success Program), Christine Wenzel (Center for Students with Disabilities), and Sarah Croucher (Director of Academic Policy). We also note that our proposal has no adverse impact on students’ financial aid (per Suzanne Peters, Financial Aid).

Specifically, SSC proposes to permanently change the last date to Withdraw from the end of the 9th week to the end of the 11th week of the semester; and in parallel, change the last date to put a course of Pass/Fail to the end of 11th week of the semester.

✓ Rationale for convergent timing for Pass-Fail and Withdrawal dates – Students should consider both Withdraw and P/F at the same time to determine how such grade-related decisions will affect their plan of study and progress toward graduation. Alignment of dates allows students to directly consider pros/cons of each option.

SSC acknowledges that moving back the Pass-Fail deadline from the 2nd to the 11th week is a change from the original intent of this grading option, which was primarily to allow students to take risks and explore topics without worry about low-grade impacts on GPA. The extended deadline allows for not only this original intent, but also for students to monitor their progress within a course and convert to Pass-Fail based on their changing circumstances. NOTE: This proposal does not in any way change the limitations on which Pass-Fail can be applied, nor the number of courses to which Pass-Fail can be applied.

Consistent with past practice, SSC’s proposal limits the number of times that a student can make a Pass-Fail grade change. Specifically, students who convert a Pass-Fail and
then revert the course back to a graded basis cannot again convert the course back to Pass-Fail.

✓ Rationale for the end of the 11th week of the semester for Pass-Fail and Withdrawal dates –

1) **Students** – The end of the 11th week deadline should allow for students to have sufficient graded assessments to make an informed decision about whether a Withdraw or Pass-Fail is appropriate for the course. The end of the 11th week (vs. later in the semester) enables students to make these grade-related decisions and then focus on class completion and final assessments during the remainder of semester,

2) **Advisors** – The end of the 11th week deadline gives additional time for advisors to meet with and counsel students around impact of grade-related decisions (both Pass-Fail and Withdraw) on plan of study and progress toward graduation. The end of the 11th week (vs. later in the semester) allows advisors to have the important conversations around success at UConn and whether a leave of absence is appropriate. Additionally, this timing allows for the difficult dismissal decisions to be communicated to students.

3) **Registrar’s Office** – The end of the 11th week deadline better enables workflow for the Registrar’s Office.

✓ Rationale for not later than the end of the 11th week for Pass-Fail and Withdrawal Dates

SSC considered dates later than the end of the 11th week, and deemed that a later date would have similar non-optimal consequences that arose by later dates in Spring 2020, Fall 2020, and Spring 2021.

As noted above, these Pass-Fail and Withdrawal permanent changes to the By-Laws received unanimous support from SSC because this proposal is viewed as addressing student needs, as well as being consistent with supporting our advising staff and our Registrar’s Office.

B. Current Relevant By-Laws

II.B.10 Academic Advising and Registration, Adding or Dropping Classes
II.E.3.b Pass-Fail Option

II.B.10 Academic Advising and Registration. Adding or Dropping Classes
Students may drop courses before the end of the tenth day of classes without transcript notations. After the tenth day of classes and through the ninth week of the semester, a student may drop one course for any reason with permission from the student’s advisor. No
student is permitted to drop a course after the ninth week of classes or to drop more than one course after the first ten days of classes unless on the recommendation of the advisor, an exception is made by the dean or designee of the school or college in which the student is enrolled. Exceptions are made only for extenuating circumstances beyond the student's control. Poor academic performance is not considered a sufficient reason for dropping a course after the ninth week. Any course dropped after the first ten days of classes will receive a ‘W’ on the transcript. Exceptions to transcript notations can be made only by the Provost or designee.

II.E.3.b Pass-Fail Option.
A student who has earned at least 26 credits and is not on scholastic probation may elect a maximum of 12 credits to be distributed over not more than three courses, to be recorded as ‘P’ for Pass or ‘F’ for Fail on his or her permanent record. Courses taken Pass-Fail may only be used as electives; they may not be used to satisfy general education, school/college, major or minor requirements. Students who are selecting a course for the Pass-Fail option must do so within the first two weeks of the semester. Students who are removing a course from the Pass-Fail option must do so within the first nine weeks of the semester. For courses taught outside of the fall and spring semesters, these deadlines will be adjusted in a pro-rated fashion by the Registrar.

C. Proposal to Senate: Motion
The Scholastic Standards Committee proposes to amend the By-Laws, Rules and Regulation of the University Senate II.B.10 Academic Advising and Registration, II.E.3.b Pass-Fail Option

II.B.10 Academic Advising and Registration, Adding, or Dropping, or Withdrawing from a Course
Students may Drop courses before the end of the tenth day of classes without transcript notations. After the tenth day of classes and through the ninth-eleventh week of the semester, a student may drop-Withdraw from one course (for any reason) with permission from the student’s advisor. Students interested in Withdrawing from more than one course after the tenth day of classes or interested in Withdrawing from a course after the eleventh week of the semester require approval by the student’s advisor and No student is permitted to drop a course after the ninth week of classes or to drop more than one course after the first ten days of classes unless on the recommendation of the advisor, an exception is made by the Dean or designee of the school or college in which the student is enrolled.
