Introduction and Recommendation 1: Common Curriculum Committee Plus  
In response to several questions about the composition of the CCC+, Senator Wilson explained that membership has not yet been confirmed.

Recommendation 2: Identify Faculty Navigators and a Faculty Assessment Fellow  
Senators Bedore and M. Wagner explained that the Faculty Assessment Fellow will work with the current NECHE Fellows. The new fellow will be assigned to common curriculum courses.

Recommendation 3: Streamline the Course Approval Process  
Senator Vernal asked for the reasoning behind the immediate suspension of the realignment process. Senator Bedore clarified that W, Q, & SL courses will remain on the current realignment schedule. Content Area courses should be aligned with the new Topics of Inquiry.

Recommendation 4: Invest in Faculty and Course Development  
Senator Bedore clarified that resource investment will be made in course revision and not only in additions.

Senator Morrell motioned to amend to include: **CCC Plus will submit a report to the University Senate no later than its October 2024 meeting on its progress in approving courses for TOI-1—Creativity: Design, Expression, Innovation, including the courses approved and submitted for approval, anticipated enrollment caps, and campuses at which faculty will offer the courses.**
Senator Harmon seconded the motion. Senator Bedore suggested that the progress report should include all TOIs.

Senator Morrell withdrew his original motion and motioned to amend: CCC Plus will submit a report to the University Senate no later than its October 2024 meeting on its progress in approving courses for each TOI including the courses approved and submitted for approval, anticipated enrollment caps, and campuses at which faculty will offer the courses. Senator Keilty seconded the motion.

There being no further discussion, a voice vote was held. The amendment passed unanimously.

Recommendation 5: Conduct an Analysis of the Administrative Needs for Facilitating and Supporting the Implementation of the Common Curriculum

No discussion.

Core Implementation Tasks, 1-8 and Timeline and Resource Allocations

Discussion followed on resource implications and faculty time. If faculty are giving time and effort to creating new courses or revision existing courses, this will come at a cost to other activities. Senator Bedore shared her appreciation for the comment and noted that more money has been budgeted for course revisions than for new proposals.

Senator Day suggested that the UConn Foundation may be available to raise funds for the new Common Curriculum program.

Senator Dormidontova noted that the current system allows for “double-dipping”. With the new system, won’t more classes be needed? Senator Bedore explained that this is a Common Curriculum program at the university level. Schools and colleges will need to decide if they will require additional courses.
