- We approved the final language for the change in the academic bylaws related to the dual degree requirements. We will present the changed bylaws in the March Senate meeting.
- We discussed the potential problem of tuition being charged for summer internships in the fall/spring semester. We came to no conclusion and decided to collect more information on the scope of the problem.
- We discussed IPE classification and we agreed with the justification for the IPE classification.
- We also discussed the requirement of HS transcripts as part of the admission process for students who hold higher degrees and agree with Admissions (L. Walsh) that they were no longer necessary.
- Academic Integrity discussion was tabled
- We discussed the new CSD course modification agreement and we didn't have strong opinions. We felt that our opinions were not impactful since we could not alter the agreement.
- We discussed the Life Transformative Education initiative forwarded by the President. We had concerns as to how this would be managed and funded and thought that we were already doing much of this already.

We adjourned at 3:23 p.m.
